User Stories for Car Rental Website

Home Page

1. As a user, I want to see a showcase of featured cars on the home page so that I can quickly view highlighted options.

2. As a user, I want to click a 'Learn More' button on a showcased car so that I can navigate to the car listing page for more details.

3. As a user, I want the home page to be responsive so that I can have a seamless experience on any device (mobile, tablet, or desktop).

4. As a user, I want a navigation bar at the top of the page so that I can easily access different sections of the website.

Car Listing Page

1. As a user, I want to see a panel of car design options (e.g., Hatchback, Sedan, SUV) so that I can select the type of car I'm interested in.

2. As a user, I want the main frame to update dynamically when I select a car design so that I can view relevant cars without reloading the page.

3. As a user, I want to click a 'Learn More' button on a car in the listing page so that I can see detailed specifications about that car.

4. As a user, I want to click a 'Booking' button for a car so that I can fill out a form to rent that car.

5. As a user, I want the booking form to validate my inputs (e.g., name, email, rental dates) so that I can avoid errors during submission.

6. As a user, I want to see a confirmation message after submitting the booking form so that I know my request was successfully sent.
